SUMMARY

I am passionate about technology, software development, and data analytics, with a strong interest in creating solutions that make a real impact. I enjoy learning new technologies, solving problems, and turning ideas into practical applications. My experience with Java, Python, SQL, and web technologies has helped me build a solid technical foundation while strengthening my analytical and problem-solving skills. I believe in continuous learning, adaptability, and personal growth. I am always eager to explore new challenges, expand my knowledge, and stay updated with the latest industry trends. My goal is to contribute to innovative projects, grow as a technology professional, and create value through meaningful and efficient solutions.

INTERNSHIP

Cranes Varsity

27 Mar 2024 - 21 Apr 2024

- Completed a one-month internship in Data Science, Artificial Intelligence, and Machine Learning. Gained hands-on experience in data analysis, data preprocessing, visualization, and machine learning using Python. Strengthened analytical, problem-solving, and data-driven decision-making skills through practical projects.

PROJECTS

AI Based Fitness Trainer

Developed an AI-Based Fitness Trainer application that provides personalized workout plans, customized diet recommendations, and meal suggestions based on users' body type and fitness goals. Utilized MediaPipe Pose and deep learning techniques for posture analysis and fitness assessment, integrated an AI-powered chatbot to offer real-time fitness guidance, and enabled direct access to YouTube workout videos for exercise demonstrations. Focused on delivering a personalized, intelligent, and user-friendly fitness experience through AI-driven insights and recommendations.

Healthcare Chatbot

Developed a Healthcare Chatbot application to provide users with quick access to healthcare information and responses to health-related queries. Implemented User and Admin modules to enhance system management, security, and usability, while creating an intuitive platform that improves accessibility and efficient delivery of healthcare information.

EDUCATION

2024 - present MCA (Acharya Institute of Graduate Studies, Bangalore)
2021 - 2024 BCA (Acharya Institute of Graduate Studies, Bangalore)

SKILLS

Programming language	HTML5, CSS3, JavaScript, Python
Tools	Microsoft Excel, Power BI, MySQL
